

KLove 106.7FM is currently in our radio coverage area. Our family(2 adults & 2 teenagers) enjoys listening to it daily. It provides music, news, and a calendar of local events all of which encourage, entertain, and inform us on both local and national events and news. We would like to see it continue and urge you to not displace it with LPFM. It is great to have it hear so we can tune in daily along with the many others in our community who applaud them for their programming and service to our community.
